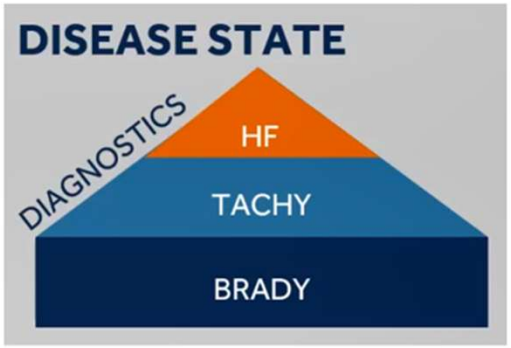
DOMAIN AND PRODUCT

Medtronic

CARDIAC RHYTHM DEVICES



ICM

(Insertable Cardiac Monitor)

PACEMAKER

(Implantable Pulse Generators)

DEFIBRILLATOR

(Implantable Cardioverter Defibrillator)

CRT

(Cardiac Resynchronization Therapy)

Medtronic

2090 vs SMARTSYNC

2090 PROGRAMMER

- Weighs 23 lbs.
- Custom MDT HW
- User Interface from 2003
- Limited Data transfer
- High LBM
- Expert Users

SMARTSYNC™ PROGRAMMER

- Highly portable (size and weight)
- Minimal MDT HW
- Program with off-the-shelf tablets
- Multiple connectivity options
  - WIFI/Bluetooth/Ethernet/ Cell
- Low LBM

Medtronic

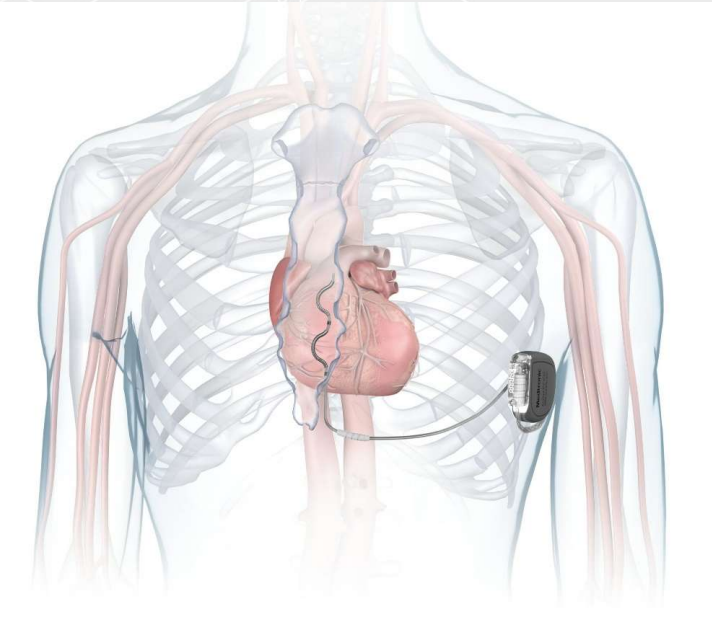
Devices

MICRA
World's Smallest Pacemaker



EV-ICD
Extra Vascular Defibrillator

Medtronic

SMARTSYNC DEVICE MANAGER

Tablet-based solution to PROGRAM and INTERROGATE compatible Medtronic cardiac devices.

- Light Weight.
- Portability
- Simplified user interface.

Medtronic

SMARTSYNC DEVICE MANAGER - COMPONENTS

SMART SYNC APPLICATION (Tab)
To View , Analyze (the Leads) and Program the Pacemaker

PATIENT CONNECTOR (Telemetry Head)
To connect to the implanted device (Pacemaker) during follow up (can be used during the implant also)

BASE STATION (Pacing System Analyzer)
To connect directly to leads and ECG cable during implant (for Lead analysis and view live ECG)
